Cricut Machine: I will offer information for Original Cricut, Create and Expression

USB Cable (basically a printer cable) to connect your Cricut to your computer

Cricut 6x12 mat OR 12x12 mat

Paper trimmer or scissors to cut 12x12 cardstock to fit your 6x12 mat

\*I love adding detail to my projects with Gel Pens. I will include that in my final project but they are optional. I say they are optional because you sure can take this class without them...but trust me once you see them, you will love them 😊 There are several marker options available...Cricut has felt tip markers that draw a thicker line. I love the detail that I am able to get with Gel Pens from [www.Cri-kits.com](http://www.Cri-kits.com) ...so many options but basically you will need a holder and your choice of pens.

Optional: Cricut Tool Kit or my must have...the Spatula

Supplies:

Your favorite cardstock to practice cutting
