

A Touch of Distinction

with Colleen's Creative Classroom

EVERYTHING COPIC

Taught by a Copic Certified Designer and Regional Certification Instructor.

They're the talk of the town... and you're wondering, "Just what ARE Copic anyway and why are they so special?" Wonder no more. Join me on a journey through the land of Copic and find out just why these art markers are so hot.

In this class I will cover:

- Copic Product Basics - A detailed discussion of each style of marker, basic care and refilling, understanding the numbering system, and color choice.
- Product Compatibility - Find out what inks and papers work best with the Copic markers and learn how to do testing with your own favorite products.
- Coloring Basics - Learn and practice inking and blending techniques (from simple to advanced) and how to most effectively use the blender marker.
- Color Combinations - Explore a variety of color combinations and create your own favorite blends.
- Mixed Media/Special Effects - Find out how to combine your Copic markers with other media for groovy special effects.
- The Airbrush System - No need to have it yet... but after seeing just what it can do... I bet you'll want it!

This class will include instructional slideshows or videos, photo tutorials, a student art gallery, discussion forums, additional informational links, blank color charts, and the Copic color wheel chart.

**This is NOT a Copic Certification Class - for my certification class listings - please see my blog or email me.*
