

Paper in the Works ...

with Kim's Creative Classroom

Watercoloring with Tombow Markers

Have you ever wanted to watercolor your stamped images like a professional? Already own some Tombow Markers but don't have any idea how to use them? Then this is a class made just for you. This technique is perfect for all levels of crafters and you will wonder no more as to why these markers are a favorite among stampers. Join me for this class and discover your inner artiste!

In this class I will cover:

Product information and versatility – We will discuss the many ways to use your markers and the difference between a Tombow Marker and a Copic Marker

Marker Compatibility: We will discuss the different products and paper choices to get the best results with your markers.

Water coloring Techniques

Color Theory – We will discuss basic color principles using a color chart.

Color Mixology – We will explore how to blend colors together to make some new shades and I will have a chart made for you with some of my favorite color combinations.

Blending – How to achieve a blended look without the messy watermarks.

Shading – How to lay your colors down to get the optimum shading and highlighting to make your image more realistic.

This class will include instructional slideshows or videos, photo tutorials, a student art gallery, discussion forums, additional informational links, and a blank Tombow Color Chart.
